---

### Professional summary

An aspiring Data Analytics professional possessing a sturdy base in data processing, reporting, and operational support developed over more than three years in administrative, financial, and technical settings. Having the experience of working with datasets, forming reports, and improving precision by means of proficient application of Excel, Google Sheets, SQL, Python basics, data visualization software like Power BI and Tableau and other tools for increasing productivity. Wanting to utilize the increasing technical skills, problem-solving capacity, and strong documentation support to assist the data collection, analysis, dashboard development in a vibrant analytics team and devoted to learning always.

---

### Core competencies

- **Data Collection & Processing:** Data gathering, cleaning, validation, and preparation using spreadsheets and basic scripting.
  - **Analytical Techniques:** Exploratory data analysis, trend identification, numerical analysis, and interpretation of datasets.
  - **Data Tools Proficiency:** Excel/Google Sheets (functions, pivot tables, lookups), introductory SQL, and Python fundamentals.
  - **BI & Visualization:** Exposure to Power BI, Tableau, for dashboards, reporting, and insight generation.
  - **Reporting & Documentation:** Structured report writing, dashboard updates, documentation of data sources, assumptions, and analytical methods.
  - **Technical Aptitude:** Familiarity with data workflows, basic database concepts, and willingness to adopt new analytics tools.
  - **Communication Skills:** Ability to translate technical findings into clear, concise insights for both technical and non-technical audiences.
  - **Collaboration & Learning Agility:** Strong teamwork, proactive learning, adaptability, and commitment to continuous skill development.
- 

### Professional Experience

#### Finance and Administration Associate

Technisem / Novalliance (Savana seeds), Kenya | Dec 2022 – Feb 2025

- Collected, cleaned, and analyzed operational and financial datasets to support evidence-based reporting and decision-making.

- Prepared clear weekly and monthly analytical reports and summaries, translating data findings into concise insights for stakeholders.
- Conducted basic trend and variance analysis (budget vs. actuals, expense patterns) to support project planning and cost control.
- Maintained structured digital data and documentation systems, improving data accessibility, collaboration, and retrieval time by 40%.
- Supported audits and compliance reviews by preparing accurate datasets, reconciliations, and supporting documentation.
- Collaborated cross-functionally with finance, HR, and operations teams to gather data requirements and validate analytical outputs.
- Used Excel and reporting tools to organize datasets, track metrics, and support research and project implementation activities.

### **Office Manager**

#### **Ng'ombe Feeds Ltd | Jul 2021 – Jul 2022**

- Prepared internal financial and consumables datasets to support project budgeting, resource allocation, and program planning.
- Analyzed inventory and resource utilization data to inform operational planning and alignment with project implementation targets.
- Collected, organized, and analyzed basic HR and workforce data (staff evaluations, engagement indicators) to support program effectiveness and retention, contributing to a 30% improvement in employee retention.
- Managed and analyzed scheduling and coordination data for meetings and field activities, supporting efficient project execution and stakeholder engagement.

### **Education**

- Data Science and Engineering Fellowship – Tech4Dev
- BSc. Business Information Technology – Kiriri Women's University of Science & Technology

### **Certifications**

- Data Analysis - UNICEF
  - Data And AI - Cyber Shujaa
  - Data Literacy - Datacamp
  - AI for Developers - ALX
  - AI Software Engineering - Power Learn Project Africa
